

Cutting edge technology. Minimum effort.

Rotatrim was formed in 1966 with a vision to create the finest rotary trimmer ever; a philosophy and a passion that continues to this present day. Using only the finest quality materials and precision engineered components, each trimmer is hand assembled by skilled technicians to exact tolerances, to construct a precise, exceptionally reliable, ultra durable trimmer. Each machine goes through a process of stringent quality checks at manufacture and assembly to ensure you receive what you have come to expect... the world's finest rotary cutting equipment.

We want to ensure you select the correct product for your needs. Should you have any questions or require further information, please contact our Sales Team on +44 (0) 1234 22 45 45 or email: uksales@rotatrim.co.uk or visit www.rotatrim.com

PT SERIES SIZE GUIDE (T SERIES TRIMMER SHOWN)

- 7** MODEL SIZES TO CHOOSE FROM
- UP TO **3.0mm** CUT CAPACITY PT650 - PT1850
- 2** SPEED VARIANTS TO CHOOSE FROM
- FREE MATERIAL COMPATIBILITY SERVICE

PT SERIES MATERIALS CUT GUIDE

Aluminium 0.5mm	Foil	Photocopier Paper	Our trimmers will cut most flexible materials up to the cut capacity. If you have a specific requirement and are not sure, please use our Free Material Compatibility Service: uksales@rotatrim.co.uk
Canvas	Hardboard 2.0mm	Photo Film	
Card	Heatseal	Polyester	
Cellophane	Honeycomb	Polystyrene	
Cibachrome	Inkjet Paper	PVC 1.0mm	
Cork	Kraft Paper	Shim Metal	
Corrugated Card	Laminate	Tissue Paper	
Crepe Paper	Leather	Veneers	
Felt	Masonite 2.0mm	Vinyl	
Film	MDF 2.0mm		
	Mountboard		

PowerTech PT SERIES

- ✓ Power driven large format, precision, robust trimmer
- ✓ Optional high speed and normal speed variants
- ✓ Foot pedal operation with automatic safety clamp enables a single user to easily position and cut large materials
- ✓ Cuts a wide range of materials without adjustment
- ✓ Overload protection feature
- ✓ Range of cutting lengths from 0.65 metres up to 2.5 metres
- ✓ Ultra hard Sheffield D2 'Tool Steel' self-sharpening, precision engineered blades
- ✓ Large single square stainless steel guide rail completely eliminates head swivel
- ✓ Aluminium baseboard, end frames, head and side rule
- ✓ Also available: Stand & Waste Collector to fit the model of your choice

Rotatrim
The world's finest rotary cutting equipment since 1966

Engineered for *Total Cut Precision*

Machine Speed Options

The PowerTech PT Series is available in both normal speed and high speed variants. The normal speed variant cuts at 0.5m/sec and has more torque so is better for trimming heavier materials. The high speed version cuts at 1.0m/sec and is better where lighter materials (generally up to 1.0mm) in thickness are being cut. On the high speed machine, it is also possible to remove the RCC plate (as it is used for thinner materials), to allow for a cut to be performed in both directions.

A range of accessories can be purchased separately including Extended Rule Kits; Roll Dispenser; Stand & Waste Collector. Visit www.rotatrim.com for details.

Model	Cut Length		Paper Size Landscape	Overall Length		Cut Capacity		Weight	
	mm	in		mm	in	mm	in	kg	lb
PT650	650	26	A2	1395	55	3.0	0.157	48.7	107.2
PT950	950	38	A1	1695	67	3.0	0.157	51.7	113.6
PT1250	1250	49	A0	1995	78½	3.0	0.157	54.7	120.3
PT1550	1550	61	A0+	2295	90½	3.0	0.157	57.7	126.8
PT1850	1850	73	2A0	2595	102	3.0	0.157	60.7	133.5
